

How to connect to HUB-Member wifi network

MacOS

How to connect to HUB-Member wifi network (MacOS)

Step 1: Click the Wi-Fi icon

- In the top-right corner of your Mac's screen, you'll see a Wi-Fi status icon that looks like a series of curved lines
- Click it to open a drop-down menu.

Step 2: Select your network

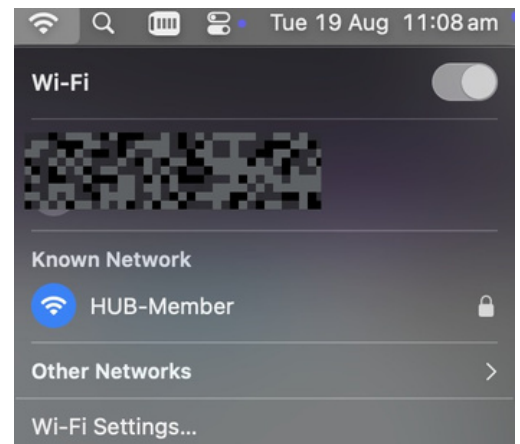

- The menu will display a list of available Wi-Fi networks
- Click on "HUB-Member" to join

Step 3: Enter the password

- Enter the password provided at <https://info.hubaustralia.com/hub-member-wifi-password>
- Type the password in the field and click **Join**

Step 4: Wait to connect

- Your Mac will attempt to connect to the network
- Once successful, the Wi-Fi icon in the menu bar will show a solid connection signal
- You'll also see a check mark next to the network's name in the drop-down menu

Troubleshooting if you can't connect

Step 1: Click the Wi-Fi icon

- In the top-right corner of your Mac's screen, Wi-Fi settings
- Under Known Network, click the **three dots (...)** or the **minus sign (-)** next to **HUB-Member**, and click on **Forget This Network**.
